

Elevating Living with Easy Lift Solutions

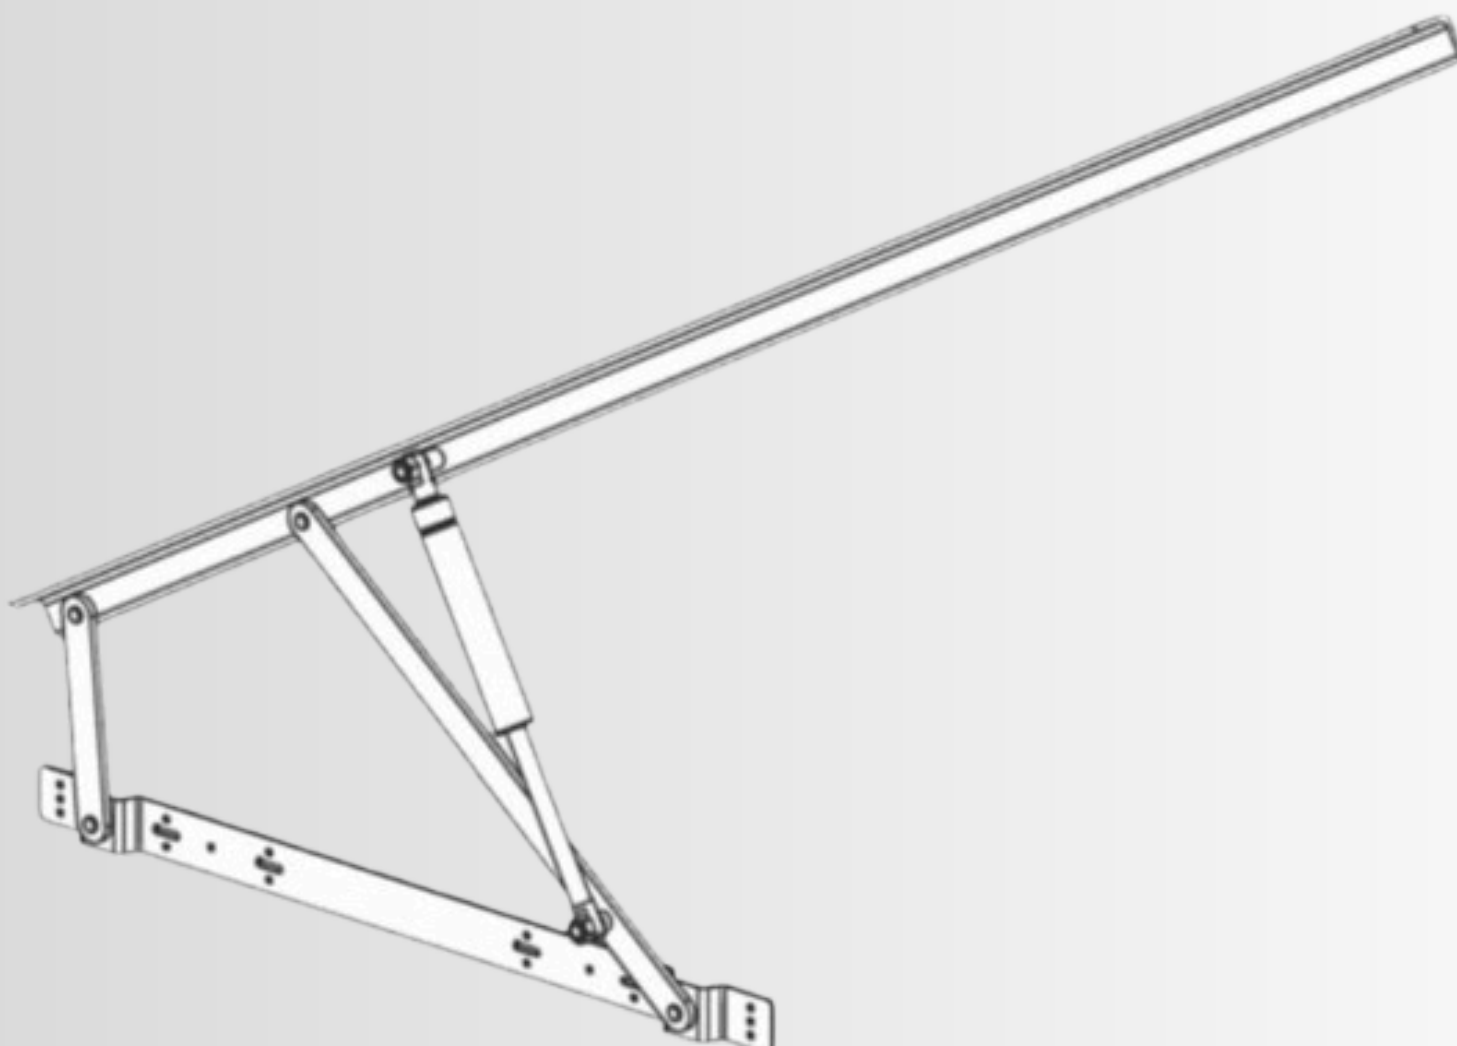

"Lifting Comfort, Maximizing Space"

- Steeltrac Enterprise is a specialized manufacturer based in Rajkot, Gujarat, with five years of expertise in creating high-quality lift bed mechanisms for the furniture and architectural hardware industries. As a trusted supplier, we are proud to provide our products to leading brands such as Ozone, Wakefit along with many other renowned architectural hardware companies across India.
- At Steeltrac Enterprise, our focus is on designing durable, easy-to-operate, and space-efficient bed lift mechanisms that enhance both functionality and convenience for modern living spaces. Built with precision engineering and premium materials, our mechanisms offer a seamless lifting experience, ensuring smooth motion, stability, and long-lasting durability. Our products are crafted to support optimal storage solutions while maintaining a sleek, user-friendly design that integrates effortlessly with a variety of bed styles.
- Steeltrac Enterprise prioritizes innovation and customer satisfaction, ensuring our products meet the evolving needs of the market. We follow stringent quality control measures and are committed to providing our clients with reliable, high performance products. Our dedicated team works closely with clients to provide tailored solutions, making us a preferred partner in the architectural hardware industry. Whether for residential or commercial applications, our bed mechanisms combine functionality, strength, and ease of use to add value to any space

Special Features

- **Space-Saving Design:** This bed features a compact, efficient design that maximizes your available storage space. It is perfect for utilizing the often overlooked area under your bed, offering a convenient and discreet space to store seasonal items, bedding, clothes, and other essentials. The space-saving design helps you declutter your bedroom while keeping everything organized and within reach.
- **Effortless Access:** With a carefully engineered 30° opening angle, this bed provides easy and hassle-free access to the storage area beneath. You won't have to strain or struggle to reach your stored items, as the angle allows for clear visibility and comfortable access to everything stored under your bed.
- **User-Friendly Lift Mechanism:** The innovative lift mechanism requires minimal effort to open and close the bed top. Thanks to the thoughtful weight distribution of the top board, you can effortlessly lift and lower the bed. This feature ensures that even with a heavier mattress, you can operate the bed with ease, avoiding any unnecessary strain or hassle. once opened. This ensures hands-free access to your storage space,
- **Stay-Put Gas Lift:** The gas lift system is designed to keep the bed top in place eliminating the need to prop the top open manually. Once lifted, the gas springs hold the bed top securely, offering you complete freedom to organize or retrieve items without worrying about the bed top closing unexpectedly.
- **Sleek Anthracite Finish:** The elegant anthracite finish gives the bed a modern, sophisticated look that complements a variety of bedroom decors. The deep, dark hue adds a touch of luxury, while the smooth finish is easy to maintain and resistant to wear. Whether you have a minimalist, contemporary, or industrial-style bedroom, the anthracite finish will seamlessly blend in, enhancing the overall aesthetic of your space.

Installation Instructions

1.Attach the Fix Brackets:

Begin by securing the fix brackets to the bed frame, following the provided dimensions (See Fig. 1). At this stage, do not attach the gas spring.

2.Mount the Bed Platform:

Next, fix the bed platform to the top brackets as shown in Fig. 2.

3.Install the Gas Spring:

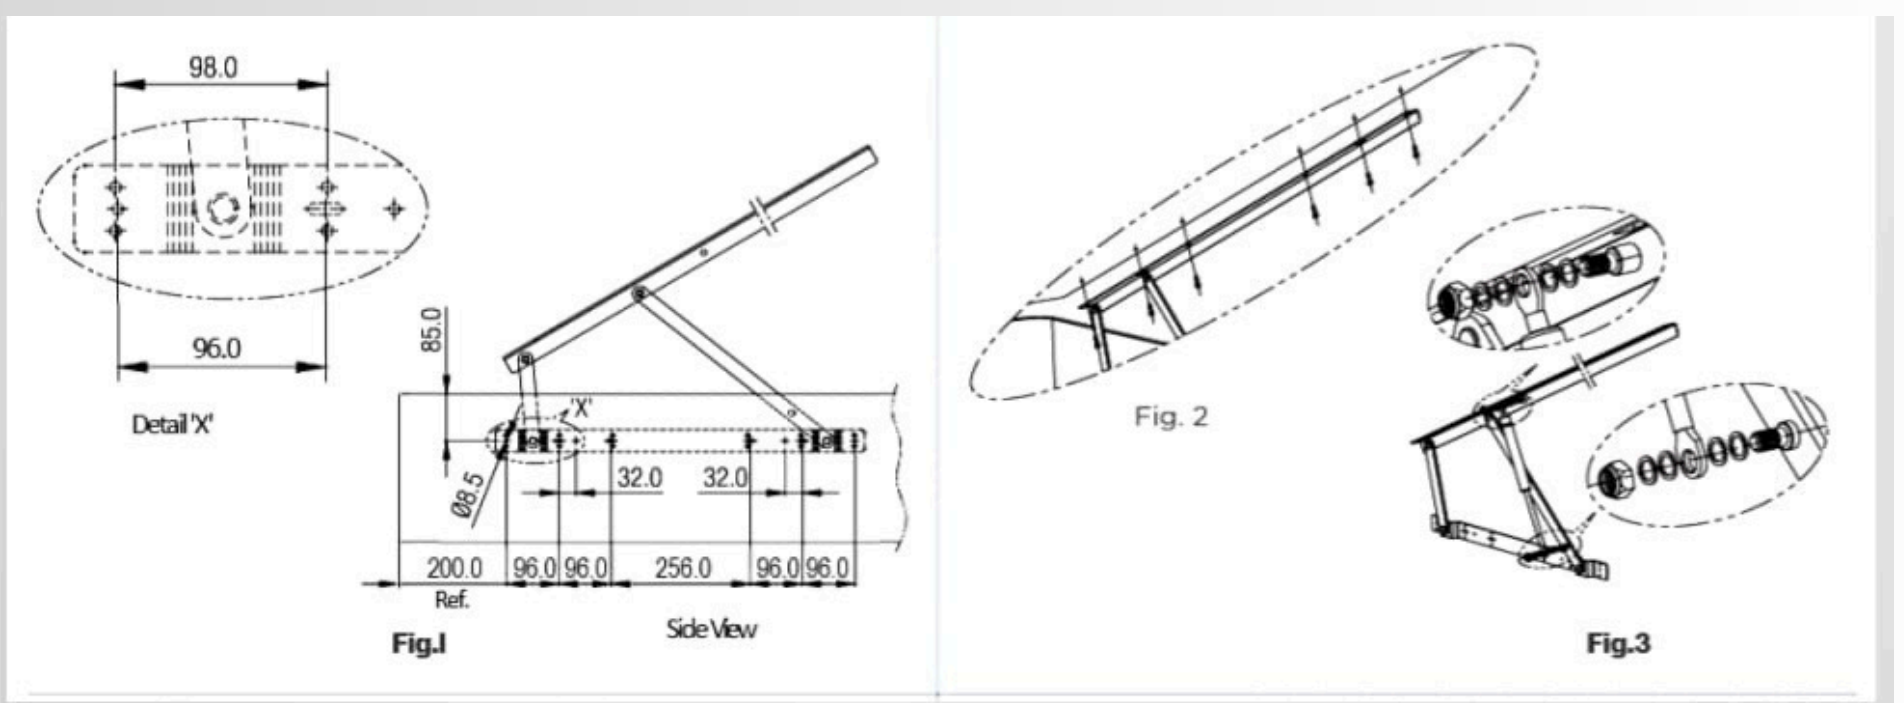

Finally, install the gas spring as depicted in the diagram (See Fig. 3).

Important Note:

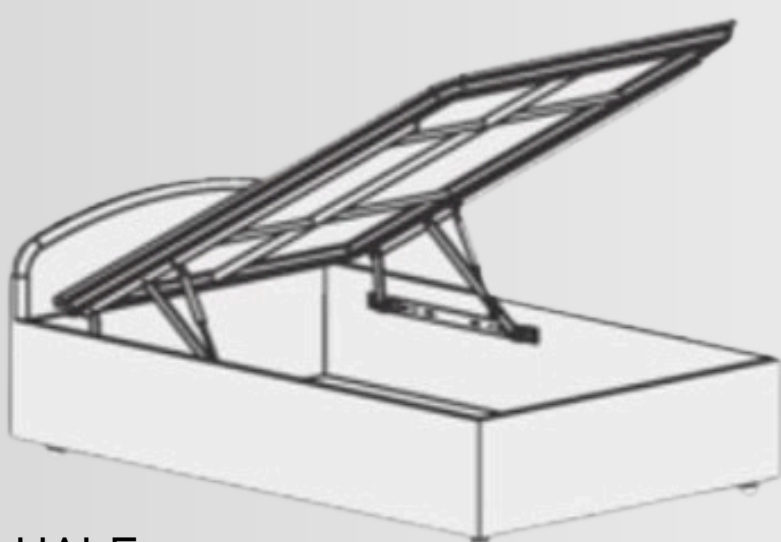

The installation dimensions are recommended guidelines and may vary depending on the specific construction design of your bed.

Caution:

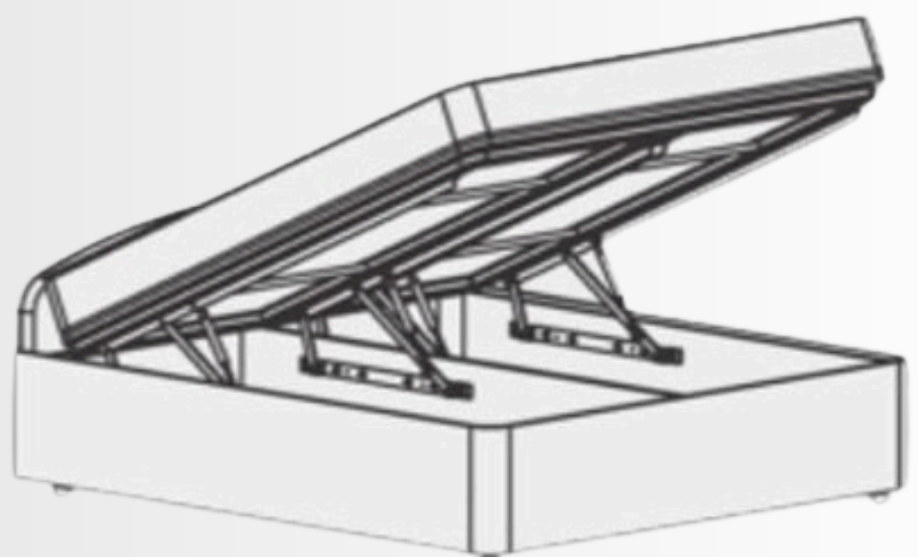

- The gas springs are under high pressure. Do not attempt to disassemble, damage, or expose them to heat or flames.
- Ensure the bed top is securely locked in place with the bed frame before use.
- Do not over-tighten the nut; the gas spring must remain able to rotate freely
